REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Prior arts of record do not disclose a method and device for determining a future travel path area taught in claims 15 and 28 in which the course path of the one second vehicle traveling ahead of the first vehicle is extrapolated in the direction of a position of the first vehicle. By extrapolating the course path in the direction of the first vehicle position, the course path of the second vehicle can be extended up to the point at the same level of the first vehicle so that transverse offset between the first vehicle and the second vehicle can be easily determined. This advantage is discussed in the clean copy of the substitute specification page 17, lines 14-34.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
